Subject index

Adsorption kinetics
Adsorption kinetics of electrode processes and the mechanisms of Kolbe electrosynthesis. Part III. Mechanism of the process (Vassiliev, Grinberg) (Review) 1
n-Alkanethiol
Electrochemical behavior of ubiquinone and vitamin K incorporated into n-alkanethiol molecular assemblies on a gold electrode (Takehara et al.) 345
Alternating current
New methods for the application of an alternating current. Part 1. Planar electrodes (Martinez-Ortiz et al.) 97
Aniline
Electrochemical and XPS studies on the generation of silver clusters in polyaniline films (Tian et al.) 357
Anti-IgG alkaline phosphatase
Evidence for a conformational change with potential of adsorbed anti-IgG alkaline phosphatase conjugate at the silver electrode interface using SERS (Grabbe, Buck) 227

Cadmium
The influence of high pressure (up to 10 kbar) on the limiting currents of the Cd(II)/Cd(Hg) system (Krasiński et al.) 189
Cadmium sulphide electrodes
Efficient transient photoelectrochemical water oxidation on catalysed polycrystalline cadmium sulphide electrodes (Feiner, McEvoy) 327
Carbon dioxide
Effect of pressure on the electrochemical reduction of CO_2 on Group VIII metal electrodes (Nakagawa et al.) 339
Carbon monoxide
Electrooxidation of dissolved CO on a Pt electrode covered with a monolayer of the chemisorbed CO formerly considered to be a poison (Gutiérrez, Caram) 321
Charged interfaces
Experimental and theoretical evidence for the non-equivalence of the electrical variables at charged interfaces. The case of surface phase transition (Nikitas) 63
Chromium(III) chloride complexes
Electroreduction of chromium(III) chloride complexes at mercury in dimethylformamide solutions (Markušová) 203
Chronoamperometry
Direct determination of diffusion coefficients by chronoamperometry at microdisk electrodes (Denuault et al.) 27
Comment
Comment on the paper "A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals" by T. Okada (Fletcher) 319
Conformational changes
Evidence for a conformational change with potential of adsorbed anti-IgG alkaline phosphatase conjugate at the silver electrode interface using SERS (Grabbe, Buck) 227

Dielectric interface
The electrostatic Gibbs energy of finite-size ions near a planar boundary between two dielectric media (Kharkats, Ulstrup) 17
Diffusion coefficients
Direct determination of diffusion coefficients by chronoamperometry at microdisk electrodes (Denuault et al.) 27
Dynamical effects
Solvent dynamical effects in scanning tunneling microscopy with a polar liquid in the gap (Sass, Gimzewski) 333

Fluoride base electrolyte
On the adsorption of sulfate species on polycrystalline platinum. An FTIR study in fluoride base electrolyte (Nart, Iwasita) 277

Formamide
Electroreduction of chromium(III) chloride complexes at mercury in dimethylformamide solutions (Markušová) 203
Formic acid
Observation of several different temporal patterns in the oxidation of formic acid at a rotating platinum-disk electrode in an acidic medium (Albahadily, Schell) 151
FTIR
On the adsorption of sulfate species on polycrystalline platinum. An FTIR study in fluoride base electrolyte (Nart, Iwasita) 277

Galvanic
Emfs of galvanic cells with liquid junctions (Perera, McTigue) 127
Gibbs energy
The electrostatic Gibbs energy of finite-size ions near a planar boundary between two dielectric media (Kharkats, Ulstrup) 17
Glycerol
The electro-oxidation of glycerol on the gold(100)-oriented single-crystal surface and polycrystalline surface in 0.1 M NaOH (Avramov-Ivić et al.) 309
Gold
Electrochemical behavior of ubiquinone and vitamin K incorporated into n-alkanethiol molecular assemblies on a gold electrode (Takehara et al.) 345
The electro-oxidation of glycerol on the gold(100)-oriented single-crystal surface and polycrystalline surface in 0.1 M NaOH (Avramov-Ivić et al.) 309
Group VIII metals
Effect of pressure on the electrochemical reduction of CO_2 on Group VIII metal electrodes (Nakagawa et al.) 339

Halide adlayers
The structure of halide adlayers on Ag(111) electrodes (Zei) 295
Hexamethylphosphoric triamide
Estimation of the relaxation energy of the solvated electron in hexamethylphosphoric triamide solution from photon emission measurements (Murakoshi, Uosaki) 351
High pressure
The influence of high pressure (up to 10 kbar) on the limiting currents of the Cd(II)/Cd(Hg) system (Krasiński et al.) 189

$i-E-t$ Curves
Three-dimensional electrochemistry. Utilization of $i-E-t$ curves for elucidation of electrochemical reactions (Papadopoulos et al.) 83
IgG
Evidence for a conformational change with potential of adsorbed anti-IgG alkaline phosphatase conjugate at the silver electrode interface using SERS (Grabbe, Buck) 227
Induction
Comment on the paper "A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals" by T. Okada (Fletcher) 319
Ion-exchange
Apparent ion-exchange current densities at LaF_3 single crystal membrane and Aliquat 3365 PVC-membrane (Xie, Cammann) 175
Iron
Differential reflection spectroscopy of passive films on iron (Hänisch, Otto) 113

Kolbe electrosynthesis
Adsorption kinetics of electrode processes and the mechanisms of Kolbe electrosynthesis. Part III. Mechanism of the process (Vassiliev, Grinberg) (Review) 1

Lanthanum trifluoride
Apparent ion-exchange current densities at LaF_3 single crystal membrane and Aliquat 3365 PVC-membrane (Xie, Cammann) 175
Lead amalgam electrode
The anodic growth of lead chloride and lead sulphate on a saturated lead amalgam electrode. A combined study by electrochemical and light scattering methods (Torrent et al.) 213
Lead chloride
The anodic growth of lead chloride and lead sulphate on a saturated lead amalgam electrode. A combined study by electrochemical and light scattering methods (Torrent et al.) 213
Lead sulphate
The anodic growth of lead chloride and lead sulphate on a saturated lead amalgam electrode. A combined study by electrochemical and light scattering methods (Torrent et al.) 213

Limiting currents
The influence of high pressure (up to 10 kbar) on the limiting currents of the Cd(II)/Cd(Hg) system (Krasiński et al.) 189
Liquid junctions
Emfs of galvanic cells with liquid junctions (Perera, McTigue) 127

Membranes
Apparent ion-exchange current densities at LaF_3 single crystal membrane and Aliquat 3365 PVC-membrane (Xie, Cammann) 175
Mercury
Electroreduction of chromium(III) chloride complexes at mercury in dimethylformamide solutions (Markušová) 203
The influence of high pressure (up to 10 kbar) on the limiting currents of the Cd(II)/Cd(Hg) system (Krasiński et al.) 189
Microdisk electrodes
Direct determination of diffusion coefficients by chronoamperometry at microdisk electrodes (Denuault et al.) 27

Noise analysis
Comment on the paper "A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals" by T. Okada (Fletcher) 319

Passive films
Differential reflection spectroscopy of passive films on iron (Hänisch, Otto) 113
Passive metals
Comment on the paper "A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals" by T. Okada (Fletcher) 319
Photo-corrosion
In-situ Raman investigation of photo-corrosion processes at p- and n-type WS_2 electrodes in acid solutions (Sourisseau et al.) 239
Photocurrents
A note on transient photocurrents at semiconductor electrodes (Ramakrishna, Rangarajan) 39
Photoelectrochemistry
Efficient transient photoelectrochemical water oxidation on catalysed polycrystalline cadmium sulphide electrodes (Feiner, McEvoy) 327
Photon emission measurements
Estimation of the relaxation energy of the solvated electron in hexamethylphosphoric triamide solution from photon emission measurements (Murakoshi, Uosaki) 351
Pitting corrosion
Comment on the paper "A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals" by T. Okada (Fletcher) 319
Planar electrodes
New methods for the application of an alternating current. Part 1. Planar electrodes (Martinez-Ortiz et al.) 97
Platinum
Electrooxidation of dissolved CO on a Pt electrode covered with a monolayer of the chemisorbed CO formerly considered to be a poison (Gutierrez, Caram) 321
Observation of several different temporal patterns in the oxidation of formic acid at a rotating platinum-disk electrode in an acidic medium (Albahadily, Schell) 151
On the adsorption of sulfate species on polycrystalline platinum. An FTIR study in fluoride base electrolyte (Nart, Iwasita) 277
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269
Polymer films
Combined electrochemical and quartz crystal microbalance study on the temperature dependence of ion and solvent sorption in electroactive polymer films on electrodes (Inzelt, Bácskai) 255
Propylene carbonate
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269
PVC-membrane
Apparent ion-exchange current densities at LaF_3 single crystal membrane and Aliquat 3365 PVC-membrane (Xie, Cammann) 175

Quartz crystal microbalance
Combined electrochemical and quartz crystal microbalance study on the temperature dependence of ion and solvent sorption in electroactive polymer films on electrodes (Inzelt, Bácskai) 255

Radiotracer study
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269
Raman spectroscopy
In-situ Raman investigation of photo-corrosion processes at p- and n-type WS_2 electrodes in acid solutions (Sourisseau et al.) 239
Reflection spectroscopy
Differential reflection spectroscopy of passive films on iron (Hänisch, Otto) 113
Relaxation energy
Estimation of the relaxation energy of the solvated electron in hexamethylphosphoric triamide solution from photon emission measurements (Murakoshi, Uosaki) 351
Review
Adsorption kinetics of electrode processes and the mechanisms of Kolbe electrosynthesis. Part III. Mechanism of the process (Vassiliev, Grinberg) (Review) 1
Rotating platinum-disk electrode
Observation of several different temporal patterns in the oxidation of formic acid at a rotating platinum-disk electrode in an acidic medium (Albahadily, Schell) 151

Scanning tunneling microscopy
Solvent dynamical effects in scanning tunneling microscopy with a polar liquid in the gap (Sass, Gimzewski) 333
Scattering studies
The anodic growth of lead chloride and lead sulphate on a saturated lead amalgam electrode. A combined study by electrochemical and light scattering methods (Torrent et al.) 213
Semi-conductor electrodes
Efficient transient photoelectrochemical water oxidation on catalysed polycrystalline cadmium sulphide electrodes (Feiner, McEvoy) 327
In-situ Raman investigation of photo-corrosion processes at p- and n-type WS_2 electrodes in acid solutions (Sourisseau et al.) 239
A note on transient photocurrents at semiconductor electrodes (Ramakrishna, Rangarajan) 39
Surface recombination at semiconductor electrodes: a single level study (Ramakrishna, Rangarajan) 49
SERS
Evidence for a conformational change with potential of adsorbed anti-IgG alkaline phosphatase conjugate at the silver electrode interface using SERS (Grabbe, Buck) 227
Silver
The structure of halide adlayers on Ag(111) electrodes (Zei) 295
Silver clusters
Electrochemical and XPS studies on the generation of silver clusters in polyaniline films (Tian et al.) 357
Silver electrode
Evidence for a conformational change with potential of adsorbed anti-IgG alkaline phosphatase conjugate at the silver electrode interface using SERS (Grabbe, Buck) 227
Sodium hydroxide
The electro-oxidation of glycerol on the gold(100)-oriented single-crystal surface and polycrystalline surface in 0.1 M NaOH (Avramov-Ivić et al.) 309
Solvated electron
Estimation of the relaxation energy of the solvated electron in hexamethylphosphoric triamide solution from photon emission measurements (Murakoshi, Uosaki) 351
Sorption
Combined electrochemical and quartz crystal microbalance study on the temperature dependence of ion and solvent sorption in polymer films on electrodes (Inzelt, Bácskai) 255
Sulfate
On the adsorption of sulfate species on polycrystalline platinum. An FTIR study in fluoride base electrolyte (Nart, Iwasita) 277
Surface phase transition
Experimental and theoretical evidence for the non-equivalence of the electrical variables at charged interfaces. The case of surface phase transition (Nikitas) 63
Surface recombination
Surface recombination at semiconductor electrodes: a single level study (Ramakrishna, Rangarajan) 49

TBAP
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269

Temporal patterns
Observation of several different temporal patterns in the oxidation of formic acid at a rotating platinum-disk electrode in an acidic medium (Albahadily, Schell) 151
Three-dimensional electrochemistry
Three-dimensional electrochemistry. Utilization of $i-E-t$ curves for elucidation of electrochemical reactions (Papadopoulos et al.) 83
Tungsten disulphide
In-situ Raman investigation of photo-corrosion processes at p- and n-type WS_2 electrodes in acid solutions (Sourisseau et al.) 239

Ubiquinone
Electrochemical behavior of ubiquinone and vitamin K incorporated into n-alkanethiol molecular assemblies on a gold electrode (Takehara et al.) 345

Vitamin K
Electrochemical behavior of ubiquinone and vitamin K incorporated into n-alkanethiol molecular assemblies on a gold electrode (Takehara et al.) 345

Voltammetry
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269

Water
Efficient transient photoelectrochemical water oxidation on catalysed polycrystalline cadmium sulphide electrodes (Feiner, McEvoy) 327
Voltammetric and radiotracer study of the interaction of water with platinum in the TBAP + propylene carbonate solution (Zelenay et al.) 269
WS_2
In-situ Raman investigation of photo-corrosion processes at p- and n-type WS_2 electrodes in acid solutions (Sourisseau et al.) 239

XPS
Electrochemical and XPS studies on the generation of silver clusters in polyaniline films (Tian et al.) 357
